

SKY & STARS

Music: WinterBeach Text:

Mal McNaughton

Sitting on the morning bus
Going to the 9 to 5
Same as every other day
Do it just to stay alive
Smiling at a pretty girl
Nothing else will get me through
Watching my life pass by
Nothing else I can do
To stop the fear of losing you

chorus

Heads full of sky and stars
Together like you and I
Opening up our eyes
Shaking our dreams to life
Heads full of sky and stars
Forever now you and I
Opening up our eyes
Wishing our dreams alive

See you with another guy
Wonder when I'll realize
That you never were in love
A fool will never see the truth
He moves you like I never could
You hold him like you never should
Watching my life pass by
Nothing else I can do
I know that I am losing you

Alive...
