

Authority of war

Text/Music: WinterBeach

Crazed monogamy, psycho humanity
Expected adultery, the world is insane
Love your enemy, but hate your family
No time for chivalry, who will drop the bomb?

War for land, war for man
Money in the bank when economy ends
Colliding stars, colliding cars
Now it is time to put the world back on hold

I'm just a man with only two hands
What can I do to keep the safety on?
Dream of purity, cleanse the authority of war
Authority of war

Real life hypocrisy, beauty in surgery
Brainwashed authority, the paint is falling of
State of emergency, where's the reality
Tune in the frequency, we're losing the grip

War for land, war for man
Money in the bank when economy ends
Colliding stars, colliding cars
Now it is time to put the world back on hold

I'm just a man with only two hands
What can I do to keep the safety on?
Dream of purity, cleanse the authority of war
Authority of war

(Ah, war, war, war)

What can I do to keep the safety on?
Dream of purity, cleanse the authority of war
Authority of war

I'm just a man with only two hands
What can I do to keep the safety on?
Dream of purity, cleanse the authority of war
Authority of war
